EXPERIENCE

TRF | Social Media Marketing Intern

Dec 2023 - Jan 2024 | Remote
Collaborated with the marketing and design teams, gaining hands-on experience in creating content, designing campaigns, and analyzing engagement metrics. Learned valuable skills in digital marketing and team collaboration.

FreeLance | Video Editor and Graphic Designer

July 2020 - May 2024 | Remote
Worked as a freelance video editor and graphic designer. Collaborated with various clients, including numerous Indian gaming streamers, creating engaging content and unique designs. Gained extensive experience in video editing, graphic design, and client communication.

PROJECT(S)

SYNC-CONNECT

SyncConnect is a corporate communication platform enabling secure chat, voice and video calls, video conferencing, and screen sharing. It supports custom servers, role-based permissions, meeting rooms, and text channels, optimizing team collaboration. Developed using Next.js, Socket.io, Prisma, Tailwind, and MySQL.

SENTIMENT ANALYSIS

Sentiment captures emotions and opinions, classifiable as positive, negative, or neutral. Sentiment analysis, an NLP technique, quantifies emotional tone in text. Utilize Python libraries (BeautifulSoup, Scrapy, Pandas, GeoPandas) and APIs for data collection, preprocessing, sentiment , geographical, & trend analysis, and visualization.

NERD TRADER

Nerd Trader simplifies stock analysis with real-time data, customizable tools, and seamless accessibility across devices, empowering investors and traders to make confident decisions. Join us to unlock your financial potential.
